ACTIVE Status

There are two ways a Younty Affiliate may maintain an Active status:

1.) Personal orders made through the Affiliate's back office with a minimum order of 50PV within the corresponding month.

2.) Customer orders made through the Younty's Affiliates Replicated Site to the sum of 50PV within the corresponding Month.

If you go over the needed PV needed to have an Active status within the current month, the extra PV will spill over to your current pay leg.

As you ascend in ranks, the required Personal Active PV will increase to 100 PV.

BINARY Qualified

In order for an Affiliate to be Binary qualified for binary pay out, the Affiliate must have a Personal Active status of minimum 50 PV (or the required PV consumption based on their current rank) and have the following requirements met.

1 personal Sponsored Active affiliate
on the Left Team with (100PV)

AND

1 personal Sponsored Active affiliate
on the Right Team (100PV).

OR

on the Left Team with 50PV each

RETAIL Bonus

Paid two weeks after the enrollment and/or the purchase of the product made by the retail customer.

Younity Affiliates are able to send retail customers to their replicated site, from which all products will show the retail price. All Younity's affiliate will be able to earn the difference between the wholesale price and the retail selling price.

In other words, let's say if a customer goes to your personal Replicated Site which is

www.globalyounity.com/affiliateID

The customer can go to the "shop now" section, click "add to cart" the items they want, they will pay retail price for a product. So if the retail item is valued at \$69, and the wholesale price is \$50, the affiliate will earn the difference which is \$19. Also, the PV value attached to the product will also be used to activate the affiliate or if already activated, it will go to the pay leg volume.

Furthermore, an affiliate will be able to purchase the products at wholesale price and sell it directly to a customer at retail price earning the difference in the prices.

PREFERRED Customer

Affiliates are encouraged to reference customers to their replicated site, as this will help them stay active.

To be a and get wholesale pricing, they will need to place sign up for our monthly fulfillment order. Each time a customer orders a product, the Affiliate will receive 100% PV associated with that product.

Any volume above what the required PV is needed to qualify for commissions at your current rank, will be sent to your lesser volume leg.

Example: You sent or enrolled three (3) customers to your replicated site being www.globalyounity.com/affiliateID and each customer purchases a \$69 pack with 50 PV, 100 PV will go to your active status and the other 50 PV will go to your pay leg.

BINARY Residual Comissions

Paid every 15th of the following calendar month

Our Yunity residual bonus is one of the most aggressive Binary plans in the industry.

When we build the binary payout, we decided to take out most of the qualifications that make it very hard for the average person to earn real income in a binary. We know that the easier we make it for our affiliates to qualify and earn, the more lives we can change.

With us, you don't need to levitate or do nothing crazy that usually only few people can do, instead, we decided to allow our affiliates to maximize our plan in the most simple way possible.

We look at your strong leg volume and your pay leg volume and we pay you a percentage on your pay leg. Once that is paid out, unused volume is carried over to the following month.

In other words, if you have 500 PV on the left side and 300 PV on the right side, and if you're qualifying for a 10% binary bonus, you would earn \$30 dollars.

In addition to this, our binary volume does NOT flush. But in order to have it accumulating for the next month, you must stay as an ACTIVE affiliate.

To qualify for Binary Team Commissions, you must have a minimum of 50BV (business volume) in personal volume, 100BV personally enrolled on your left leg, 100BV personally enrolled on your right leg, and a minimum of 200BV in your pay leg. At the end of the month, we look at your lesser leg and pay you a Binary Team Commission. If you do not have 200BV in your pay leg, your volume will rollover to the following month.

Binary Team Commissions and other monthly commissions are paid monthly on the 15th of the next calendar month.

Note: All first month order WSV counts towards Fast Start and Weekly cycle bonuses, and second month orders or monthly replenishment order BV count towards residual Binary Commissions. To maximize the compensation plan, you should purchase a 100PV order.

Here are the ranks that show the residual paid at each rank.
